

It Takes All Kinds (George Strait)

Some got a boat they like to float
Some got a story they sugar-coat
Some got a clue and then some don't
It takes all kinds

Some got a beer they like to drink
Some got a thought they like to think
Some got a chain with a few more links
It takes all kinds

That's what makes this world go around
You keep doing your thing, I'm doing mine right now

You've got a song, go on and sing it
Crank it up, rear back and bring it
I've got one, I think I'll swing it
It takes all kinds

Some wear a backwards baseball cap
If that's you, I'm cool with that
Me, I'm more a cowboy hat
It takes all kinds

That's what makes this world go around
You keep doing your thing, 'cause I'm doing mine right now

You've got a song, go on and sing it
Crank it up, rear back and bring it
I've got one, I think I'll swing it
It takes all kinds

Some like a dip in their bottom lip
They say, it's easier to spit
Me, I like a top lip dip
It takes all kinds

That's what makes this world go around
You keep doing your thing, I'm doing mine right now

Some say it is, some say it ain't
Some say we can, some say we can't
Winners, losers, sinners, saints
It takes all kinds

Some got a boat they like to float
Some got a clue and then some don't
Some got a beer they like to drink
Some got a thought they like to think
Some got a chain with a few more links
It takes all kinds
