West African youth to reach
their full potential.*

A COMMITTED ORGANISATION

Village Pilote is both a European and an African association. Since 1994, its mandate is to defend the rights of the children and to give them the tools to exercise and value them.

AN ECO FRIENDLY AND SUSTAINABLE APPROACH

All our actions are planned and executed in the strict adherence to the highest environmental considerations and standards.

For instance, in the reception centre of the Pink Lake in Senegal, our buildings are bioclimatic, and we are developing organic agriculture and renewable energies, with a focus on self-sufficiency.

We share this ambition with all of our partners.

A VISION OF SOLIDARITY WITHOUT BORDERS

Our founding commitment

> make children and young people of today, especially the most vulnerable, in the North as much as in the South, the citizens of a world of genuine solidarity.

Our 3 levels of intervention

> **Advocacy interventions** by our central team, aiming at governments and official institutions;

> **Emergency actions** carried out by our field teams in response to the issue of street children in West Africa;

> **Awareness-raising actions** organized by our local teams to develop intercultural, intergenerational and interfaith exchanges.
